

Universal Air Conditioner Remote Controller KT-109 II User's Manual

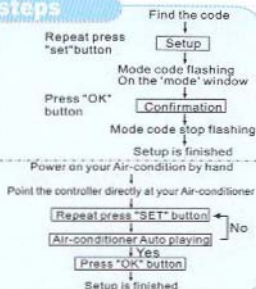

Setting up steps

Manual setup steps:

1. Refer the CODE FORM and find the code number standing for the brand. And power on your Air-conditioner by hand.
2. Repeat the press "set" button several times the number you want flashing on the mode window.
3. Press "ok" button, the mode code stop flashing. Set-up is finished. You can use the controller to control your Air-conditions.

Auto-Searching steps:

1. Power on your Air-conditioner by hand.
2. Point the controller directly at your Air-conditioner. Repeat the press "set" button several times until Air-conditioner can Auto-playing or Auto-stopped, then press "OK" button.
3. Setup is finished.
